

# Cardamom Heritage

## A Legacy of Indian Cardamom

Known as the **Queen of Spices**, Indian green cardamom has been cultivated for centuries in the lush hills of the Western Ghats. Celebrated for its rich aroma, natural sweetness, and exceptional flavour profile, Indian cardamom remains one of the world's most valued premium spices.

At **Andromage Global LLP**, we connect international buyers with export-grade Indian cardamom sourced through trusted supply networks and quality-focused processing standards.
